Vote:599 Lwengo District**Quarter4****Summary of Cumulative Receipts, disbursements and expenditure for FY 2019/20**

By the end of the 4th Quarter (FY2019/2020) the District had realized 94% (shs 26,003,805,000) of the approved annual Budget of shs 27,557,239,000. This slightly low Performance(94% instead of 100%) was due to noted poor performance of Locally Raised Revenues at 36% due to failure to get Q2 and Q3 expenditure limits from Ministry of Finance because of failure to remit the funds disbursed in Q1, though also the collections were low- 1% in registration fees, no Park fees, Quarry charges, local hotel tax fees much as there was noted good performance of; miscellaneous was at 43%, Occupational Permits rose to 26646% as a result of a concerted effort by the District through sensitization of the masses on its importance, the poor performance was compounded by creation of new town councils, abolition of revenue sources like taxi parks and non-remittances as a result of poor economic situation of the community, there was also very low receipts from External Financing was at 20%,000 implying a shortfall of 55%of the targeted 70%. This was due non realization of funds from UNICEF, Global Fund, I much as there was 19% from IRBD, 45% from GAVI and 44% from GIZ. However, there was good performance of; Other Government Transfers at 113% more by 113% due to Micro Projects Under Luweero at 259% because it was received as a lump sum and URF at 106% due to some emergency funds for some roads though there was poor performance of support to PLE at 18% and non-receipt of funds from ATAAS, this was also boosted by Central Government Transfers of shs 24,320,092,000(108%) where 2,658,730,000 and 21,661,362,000 are Discretionary Government Transfers(DGT) and Conditional Government Transfers (CGT)respectively against an Annual budget of 21,225,950,000 which is 100%(DGT;99% and CGT 113%) implying a 13% over the expected 100% this high performance is basically as a result of receiving a supplementary Budget of UGIFT and Salary and Pension Arrears in Health and Education. Out of the cumulative release of shs 25,999,229,000, the District had spent cumulatively shs. 25,457,316,000 which is 94% of the Budget released,92% of the Budget spent and 98% of the Budget released spent leaving 2% Unspent. Community had the highest % Budget released at 113% because of the 259% release of the Micro Project under Luwero Rwenzori Program and Internal had the least release at 81% because of not realizing much of the Local Revenue component in the work plan since the District had not received Local Revenue to spend in Quarter 2,3 and very little in Quarter 4. Community Departments had the highest Budget spent at 112% and due receipt of the bulk of funds in Q4 and Audit at 69% had the lowest since a large percentage of funds mainly for micro Projects in the Luweero Rwenzori Programme were received at the end of the Quarter and thus could not be spent in the Quarter. Audit had the least % Releases Spent at due to system errors. The overall 2% unspent balance was mainly as a result of late release of funds since Lwengo had just joined tier one IFMS and the process of loading budgets and getting warrants from the MoFPED delayed the process, then in Departments with Projects that required procurement of contractors a process that was still ongoing by the end of the Quarter. The District's main expenditures in the Quarter were mainly on advance to the contractor for the District Administration Block, salary and Pension arrears, Councilors' honorarium, immunization of measles and rubella, Accounting Stationery, salaries for the staff the lion's share being that of Primary school teachers. The unspent balance was mainly for Projects that required procurement of contractors which could not be complete due to late receipt of funds and delay in procurement processes, since there was the IFMS.

By the end of 4th Quarter for FY2019-2020, the District had realized Locally Raised Revenue of shs 264,636,000 which is 36% of the Annual Budget of 743,754,000 implying a shortfall of 65% against the Planned 100%. This poor performance was due to 1% in registration fees, no Park fees, Quarry charges, local hotel tax fees much as there was noted good performance of; miscellaneous was at 43%, Occupational Permits rose to 26646% as a result of a concerted effort by the District through sensitization of the masses on its importance, the poor performance was compounded by creation of new town councils, abolition of revenue sources like taxi parks and non-remittances as a result of poor economic situation of the community.

Most importantly the Local Revenue remained at 25% since the policy of Ministry of Finance was to send 25% first then only send more after repayment which the District had not done yet and more funds were realized in only Quarter 1 and 4.

Summary of Workplan Revenues and Expenditure by Source

he department expected to receive 31,641,000, however, we received 25,445,000 which is 80% of the expected revenue. This is attributed to the 100% release for wage, non wage and sector grant and no releases in multisectoral transfer and local revenues. The total expenditure amounts to 65%, including 97% on wages and 27% non-wage, thus leaving unspent balance of 17%. This was due to system delays in requisitioning and uncoordinated warranting of departmental funds by finance department.
